- Resume
- A letter of interest detailing your background and describing how you meet or exceed the requirements

WORK LOCATION: 700 Fifth Avenue, Seattle Municipal Tower (formerly Key Tower), Seattle, WA.

WORK SCHEDULE: This position is exempt from FLSA requirements and is not overtime eligible. The normal workweek is normally Monday through Friday 8:00 a.m. to 5:00 p.m. This position will participate in an on-call 24x7 rotation.

POSITION PURPOSE: This is a senior analyst position in an Oracle Financial System environment, responsible for developing and modifying screens, reports, interfaces, workflows and custom code. This position will be responsible for creating complex ad hoc and production financial reports and downloads, and assisting users with Business Objects reports. This position will assist with supporting the following Oracle financial applications; GL, A/R, A/P, Purchasing, iProcurement, Order Management and Inventory. Current release is 11.5.8 moving to release 11.5.10 and database 10g in 2006.

PRIMARY JOB DUTIES INCLUDE:

- Provide production support to Oracle Financial applications R11i.
- Develop and modify Oracle application screens and reports using Oracle Developer 6i Suite.
- Support and maintain system interfaces.
- Act as a liaison between clients, vendors, contractors, and management staff.
- Respond to system failures; analyze and resolve Oracle application issues.
- Develop complex queries, reports and downloads of financial information (A/P, A/R, G/L) for a variety of customers using Business Objects.
- Manage and administer Business Objects user responsibilities and security.

- Assist in the evaluation, planning and acquisition of new software products related to financial systems reporting tools.
- Participate as a team member or lead in application upgrade projects.
- Maintain and assist in the development of information system standards and product quality.
- Evaluate existing and proposed applications for process efficiency, system integrity and security, and data quality.
- Other duties as assigned

QUALIFICATIONS:

- Bachelor's degree in computer science or related field. Three years experience supporting Oracle financial applications may be substituted for a completed degree.
- Demonstrated experience implementing and supporting Oracle Financial Applications.
- Technical and functional experience with R11i version of Oracle Financial applications.
- Understanding of Oracle applications database architecture and programming standards.
- Experience developing and modifying Oracle forms and reports.
- The ability to communicate effectively both orally and in writing to a wide range of individuals.
- The demonstrated experience to successfully build effective working relationships with customers, co-workers, and outside vendors.
- Must have the demonstrated ability to define and identify priority items with the customer that best support their business goals.
- Must be able to work as an effective team member.
- Must have the demonstrated ability to work independently to prioritize work, stay on schedule, and identify issues that need to be elevated.
- Must be able to provide customer support outside of normal business hours when required.

DESIRABLE QUALIFICATIONS:

- Experience with Business Objects Supervisor, Universe and Reports.
- Experience implementing data warehouses.
- Experience with Oracle user reporting tool, Discover.
- Experience with a variety of user reporting tools.
- Experience with building and modifying Oracle Workflow, version 2.5 and higher.
- Experience using UNIX shell scripting and UNIX "vi" editor.

SELECTION PROCESS: Applications will be screened for qualifications. Competitive applicants will be invited to an interview.

UNION REPRESENTATION: This position is represented by the International Federation of Professional and Technical Engineers Local 17 Information Technology bargaining unit.

CLASS CODE: 734602

ORACLE FINANCIAL APPLICATION DEVELOPER
Application Developer Senior
Supplemental Questionnaire
Job Announcement No: 05CY5739

Please provide a concise written response to the following questions. You will be evaluated on your level and extent of experience, level of technical knowledge and clarity of response. Your response should be limited to no more than 2 pages. Please include your name and job number at the top of each page.

1. Describe your expertise in implementing Oracle Financial applications or specific functional modules. Describe what applications and versions you have implemented.
2. Describe your expertise in providing support for Oracle Financial Applications version R11i. Identify your role and responsibilities. Describe the specific applications (A/P, A/R, GL...) that you have supported.
3. Describe your expertise using Oracle Developer Suite 6i. Specifically discuss your use of Oracle Forms and Reports.
4. Describe your expertise in creating and maintaining workflows, version 2.5 and higher, within Oracle applications.
5. Describe your expertise in using Business Objects.
